

ONE GENERATOR MULTIPLE SOLUTIONS

The Barrx™ flex RFA energy generator provides the flexibility to choose from our family of catheters, for larger or smaller treatment areas.

Treating circumferential disease with the Barrx™ 360 express RFA balloon catheter

The Barrx™ flex RFA energy generator is a bipolar radiofrequency energy generator designed to control depth and uniformity of tissue ablation in the GI tract.

EASY

- Seamless transition between circumferential and spot treatment cases
- Intuitive sizing provides improved differentiation between the esophagus and stomach

FAST

- Rapid firing for reduced procedure time
- Recovery in <2 seconds with Barrx™ RFA catheters

SMART

- Tracks and displays total number of ablations
- Automatically adjusts default power density settings to match catheter

Barrx™ RFA cart: CART-100

Custom-designed to accommodate Barrx™ flex RFA energy generator, Barrx™ catheters, and accessories.

- Overall dimensions:
Height: 42.5"
Width: 22.5" (34" w/trays)
Depth: 23"
- Product storage capacity:
18 Barrx™ 360 express RFA balloon catheters
12 Barrx™ RFA focal catheters
12 Barrx™ RFA endoscopic guidewires
- Net weight: 100 lbs.

BARRX™ RADIOFREQUENCY ABLATION SYSTEM SPECIFICATIONS

Barrx™ flex RFA energy generator: 1190A-115A

The generator gives you flexibility to choose either the Barrx™ 360 express RFA balloon catheter for circumferential treatment areas or our family of focal catheters.

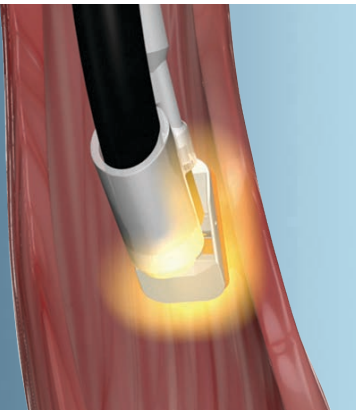

Accessories included:

Barrx™ flex RFA footswitch: FLEXFS-010A
For hands-free activation of ablative delivery system.

Barrx™ flex RFA output cable: FLEXCC-020A
Connection cable for the ablation catheter to the Barrx™ flex RFA energy generator.

Extended Service Agreements Available:

The Barrx™ flex RFA energy generator includes a 1 year warranty on the generator, footswitch and output cable. Medtronic offers 2 and 3 year service plans.

Treating a small area
of disease with a Barrx™
RFA focal catheter

Products for use with the Barrx™ flex RFA energy generator:

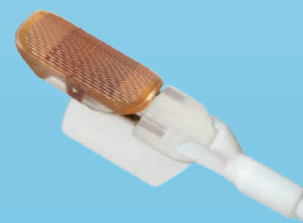

Barrx™ 360 express RFA balloon catheter 64082: Self-adjusting balloon catheter that eliminates the need for the sizing step.

Barrx™ ultra long RFA focal catheter 90-9200: Single-use catheter fits on the distal end of a flexible endoscope. This bipolar electrode array delivers energy to larger areas of tissue.

Barrx™ 90 RFA focal catheter 90-9100: Single-use catheter fits on the distal end of a flexible endoscope. This bipolar electrode array delivers energy to smaller areas of tissue.

Barrx™ 60 RFA focal catheter 90-9300: Single-use catheter fits on the distal end of a flexible endoscope. This bipolar electrode array delivers energy to smaller areas of tissue.

Barrx™ channel RFA endoscopic catheter TTS-1100: Single-use catheter fits through the working channel of the endoscope. This bipolar electrode array delivers energy to smaller areas of tissue.
