

DETECT THE UNDETECTED

Enhance your ability to detect colorectal cancer with Artificial Intelligence (AI).

GI Genius™
intelligent endoscopy module

Each
1,0%
increase in the
adenoma
detection rate
was associated
with a
3,0%
decrease in the
risk of cancer¹

The GI Genius™ intelligent endoscopy module offers a transformative solution — **powered by AI** — to address the challenges of detecting colorectal cancer, early.

Medtronic
Further, Together

The GI Genius™ module is designed to seamlessly integrate with your existing colonoscopy equipment and workflow.

It works in real-time, automatically identifying and marking abnormalities consistent with colorectal polyps, including those with flat (non-polypoid) morphology.

GI Genius™ intelligent endoscopy module

Artificial intelligence. Real results.
