

MOTILITY AKADEMY 7

Thursday 14/09/2023

13.55 – Opening speech (Uhlíř R., IMEDEX s.r.o.)

BLOCK I: WE START FROM THE BOTTOM

14.00 – 15.00

1. Intestinal transit examination – when and how (*Lipták P., UN Martin*) – 15 min.
2. Do we need anorectal manometry (Isn't a digital examination per rectum sufficient?) (*Loudová P., ON Kolín*) – 15 min.
3. GIT microbiome and motility (*Bajer L., IKEM*) - 15 min.
4. Diet and intestinal motility in health and disease (*Hrabák P., Všeobecná fakultní nemocnice v Praze*) – 15 min.

Coffee break 15.00 – 15.20

II. BLOCK: UPPER DYSPHAGIA – A SPACE FOR COLLABORATION

15.20 – 16.15

1. Upper dysphagia – differential diagnosis (*Chrobok V., FN Hradec Králové*) – 20 min.
2. Zenker's diverticulum – ENT approach or flexible endoscopy (*Tachecí I., + ORL FN Hradec Králové – a joint speech and discussion*) – 25 min.
3. Endoscopic treatment options for cricopharyngeal achalasia (*Hugová K., IKEM*) – 10 min.

Coffee break 16.15 – 16.35

BLOCK III: ESOPHAGAL REFLUX DISEASE – DIAGNOSIS

16.35 – 17.45

1. pH metric examination of the esophagus – who should perform it and how? (*Dolina J., Konečný Š., FN Brno*) – 15 min.
2. Diagnosis of reflux in children (guidelines, practice in the Czech Republic, recommendations, etc.) (*Hradský O., FN Motol*) – 15 min.
3. Agreement or disagreement of standard procedures for the diagnosis and treatment of RCHJ between gastroenterologists and ENT specialists – 40 min.
 - a. Gastroenterology (*Zdrhová L., FN Plzeň*)
 - b. ENT – IFOS Dubai guidelines for the definition and diagnosis of laryngopharyngeal reflux (*Zeleník K., FN Ostrava*)
 - c. Diskuze

17.55 – 18.25

STATE OF THE ART: DIAGNOSIS OF MOTILITY ESOPHAGEAL DISORDERS – MANOMETRY OR ENDOFLIP? (*Pandolfino J., Northwestern Memorial Hospital, Chicago, USA*) – *online přednáška*

Okomentoval(a): [MOU1]: Napsat, že je to virtual a také dojednat tento čas s Pandolfinem.

18.30 *End of Thursday's professional program*

20.00 *Social evening with live music*

Pátek 15. 9. 2023

BLOCK IV: THE ESOPHAGUS IS NOT AN ORDINARY PIPE – NOT JUST ACHALASIA

9.00 – 10.00

1. Pneumatic dilatation – a practical procedure in the treatment of achalasia (*Vacková Z., Ústřední vojenská nemocnice Praha*) – 15 min.
2. A new protocol for performing high-resolution esophageal manometry (*Balihar K., FN Plzeň*) – 15 min.
3. Achalasia in children – diagnosis and treatment (*Bánovčín P., Martin*) – 15 min.
4. Postfundoplication dysphagia (*Vašátko M., IKEM*) – 15 min.

Coffee break 10.00 – 10.20

BLOCK V: HOW THE STOMACH MOVES AND WHAT ABOUT IT

10.20 – 11.20

1. Electrogastrography and stomach function disorders (*Bureš J., Ústřední vojenská nemocnice Praha*) – 15 min.
2. Functional dyspepsia or gastroparesis? (*Šťovíček J., FN Motol*) – 15 min.
3. EndoFLIP – how do we measure pylorus? (*Evinová E., Vítkovická nemocnice*) – 15 min.
4. Pylorus-targeted therapy in the treatment of gastroparesis (*Martínek J., IKEM*) – 15 min.

Coffee break 11.20 – 11.40

BLOCK VI: REFLUX AND ITS COMPLICATIONS – HOW TO TREAT

11.40 – 13.10

1. Proton pump inhibitors – rumors or real risks? (*Martínek J., IKEM*) – 15 min.
2. Antireflux treatment does not work – what next? (*Navrátil V., FN Olomouc*) – 15 min.
3. Physiotherapy in the treatment of reflux – are we missing a unified protocol? (*Mádle K., Fyzioterapie Praha*) – 15 min.
4. Barrett's esophagus – an update on endoscopic therapy (*Košťálová K., ÚVN*) – 15 min.
5. Fundoplication for ectopic symptoms (*Šnajdauf M., Haruštiak T., FN Motol*) – 15 min.
6. Final discussion – 10 min.

13.05 *Closing of the Motility Academy* 7

13.10 *Lunch*
