Renew® Inserts

Confidence and Control. **In Comfort**

Renew Inserts softly and comfortably fit the body, sealing the rectum from the inside to help prevent **Accidental Bowel Leakage (ABL)**. They provide reliable and discreet internal protection that allows your patient the opportunity to live a normal, active life.

A single Renew Insert can be worn day and night, until the next bowel movement, or changed as desired. Simple and easy to use, each insert is individually packaged with a handy, disposable finger-tip inserter.

About ABL

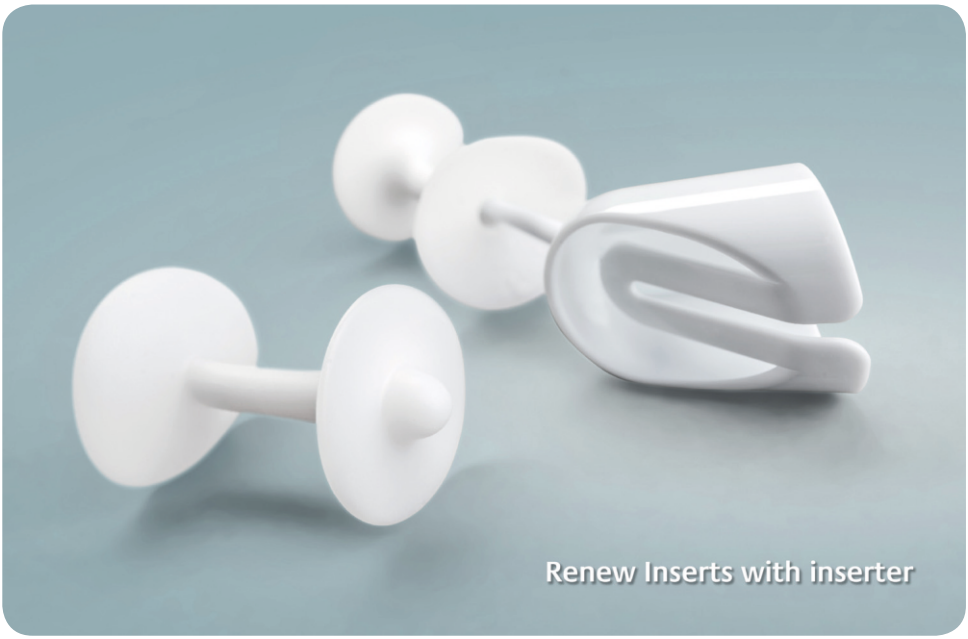

- As many as 1:10 adults in the UK suffer with ABL
- Emotional distress can often result from ABL
- ABL is more prevalent in women than men
- Can be a primary or secondary symptom of other disease
- Fear of an embarrassing episode can prevent patients enjoying a normal, active life

Functional causes

- Cancer
- Traumatic Childbirth
- Irritable Bowel (IBS/IBD)
- Post Radiation Therapy
- Post Trans Anal Irrigation
- Following surgery to the anal sphincter/pelvic floor

Neurogenic causes

- Cauda Equina
- Multiple Sclerosis (MS)
- Parkinson's Disease
- Cerebrovascular Accident (CVA)
- Diabetes

Renew Inserts are available in two sizes. A starter pack is also available to help assess the most appropriate size, prior to prescription.
